How To Transfer Purchased nook Books To An EREADER using Adobe Digital Edition?

Step 1: Click on the Library View within Adobe Digital Editions. Titles you have downloaded are listed on the right blank.

Step 2: You will see the file copy to the nook. The title is now transferred to the device. On a PC, click "Safely Remove Hardware" icon on the lower right of your monitor. Then click the "Safely Remove USB Mass Storage Device" box.

Step 3: Touch the menu icon at the bottom of your nook for My Library. The book you just downloaded will appear under "My Documents." Scroll down to the title. Touch "View item details and options." Touch "Read" to begin reading your eBook.

eBooks can't be downloaded directly from the OverDrive page to your nook. To transfer downloaded eBook from computer to NOOK, you need to make sure the eBooks format can be supported by NOOK. NOOK supports TXT, PDF, Word, and ePub format. If your eBooks are none of these formats, you need to convert them to NOOK supported format, then you will need epubsoft ebook converter, to download, just click:

The automatic file transfer mentioned does not happen with every Nook. Specifically, the Adobe Digital Edition 2.0 does not support the Nook HD. I'm online now trying to figure out how to do this.
