

Newly launched free online ebook convert app need

Posted by jonny greenwood - 2013/10/12 03:44

First I need to clarify that I don't mean to promote anything.

This is just our new project, it's totally free to use, even no ads on the web page.

This free online ebook converter's url is: <http://www.epubor.com/online-ebook-converter.html>

Supports unprotected mobi, epub, pdf, you can input emails to get the download link once finishing the uploading process.

Can you please try this service and give me some important feedback about how to improve it?

And dear webmaster if you think this topic is against guidelines, I would delete it without hesitation, but please do not ban my account.

Thanks in advance.
